

Mentors Care graduate Cade is living out his dream of serving in the U.S. Navy! He finished Basic Training Oct 1st and is now preparing to start his A-School any day now.

In between all that, he took the time to call his mentor coordinator and talk for over an hour.

He was in Mentors Care for all four years of high school. His mentor, Tim E., is our program's longest standing mentor.

This young man has broken away from a horrible past of abandonment, emotional abuse, rejection, deep hurts and more than we could imagine.

Cade shared that his biggest takeaway from our program is to DREAM BIG and believe he could achieve his dreams, and he did!

"Life looks different now and has more meaning now." -Cade
