

Tiffany's mom passed away when she was a sophomore after battling a very aggressive stage of cancer. She lost her best friend and personal encouraging corner that day.

Tiff quit basketball abruptly and had the hardest year of track because grief gripped her. School was very foggy. She lost her motivation.

Last year, 2019, Mentors Care opened at Ferris HS. She was one the first students in the program. Her Mentor last year and this year have helped groom, uplift, befriend, encourage, and give her the motivation she needed to pursue her dreams of gong to college. Her family is not financially able to assist Tiff so she knew she needed a scholarship. With the help of coaches, Tiffany has signed with Kansas Westland for a track scholarship. She is so excited and knows that her Mom is smiling in Heaven.
